IGE ALGERIA

"From Project to Product" :
The gathering place for
all industrial suppliers

20-23 DECEMBER 2026

ORAN CONVENTION CENTRE

PRESENTATION DOSSIER

"Industry, it's now!"

Algeria's industrial sector is accelerating
- Import substitution
- Modernization of production units
- Upgrading
- Push toward exports

The needs are massive:
- Factory construction
- Machines & processes
- Raw materials
- Industry 4.0
- Logistics & services

Industry Grand Expo returns in 2026 for its second confirmation edition.

IGE brings together the entire industrial chain: from **design to production.**

Our objective is clear:

> Provide **more solutions** to Algerian industrialists.

Participating in IGE means joining this dynamic.

IGE 2026 is not just a trade show.
It is a **strategic platform.**

IGE 2026 places you at the heart of industrial investment decisions in Algeria.

Conferences & Expertise:
knowledge at the heart of the industry

Think, debate, decide — IGE 2026 conference area

Alongside the exhibition, **IGE 2026** will offer a program of conferences led by national and international experts. The themes are the most strategic for Algerian industry: **digitalization** and Industry 4.0, **robotics** and **automation**, research & development, resource management, international standardization and certification.
These sessions provide participants with a privileged space to analyze trends, **share** best practices, and identify concrete **partnership opportunities** — beyond the exhibition floor alone.

KICK FACTORY

The industry of tomorrow is taking shape today

Kick Factory: honoring young industrial talents

IGE 2026 will also host the **Kick Factory**, a **competition** dedicated to young industrial entrepreneurs. Candidates from the **Injaz EIDjazair** program will present their **innovative projects** to a jury of industrialists, investors, and sector experts.
The **best projects** will receive an **official IGE prize**, giving winners visibility, credibility, and direct connections with the Oran and national industrial ecosystem.

Why Participate?

ORAN CONVENTION CENTRE

PRESENTATION DOSSIER

Oran, the new industrial hub of the Mediterranean

Oran is a region highly conducive to industrial investment. The wilaya of Oran is experiencing an unprecedented dynamic in the non-petrochemical industrial sector, with the **emergence of clusters** in **steel**, **mechanical**, **food**, and **pharmaceutical industries**, strengthening its position in the Mediterranean basin. It is home to **Renault**, **Sorfert**, **Unilever**, **Tosyali**, and Knauf (source: Oran Regional Directorate of Commerce).

Industrial land is developing rapidly. New industrial zones are being created in Tafraoui (**596 ha**) and Bethioua (**592 ha**), targeting the pharmaceutical, steel, and mechanical sectors.

The Western region — Oran, Sidi Bel Abbès, and Tlemcen — concentrates more than **1,900 ha of developing industrial zones** and hosts **fast-growing** sectors: pharmaceuticals (14 laboratories), agri-food, chemicals, and automotive. In a country where industry captures 37% of national investments, Oran is establishing itself as one of the most active emerging hubs.

Be present where your market is waiting for you.
